

No. MCL/SBP/GM(S&M)/2016-17/ 28

Dt. - 06.04.2016

NOTICE

SUB: Provision for supply of domestic coal in place of imported coal under FSA to the tune of 5% of ACQ during 2016-17.

Fuel Supply Agreement with post 2009 Power Plants provides scope for supply of imported coal to the tune of 5% of the ACQ during 2016-17. However, it has been conveyed by Coal India Limited that in view of improvement in domestic coal availability during 2016-17, no imported coal is being offered under the FSA and the import component of 5% of ACQ shall be supplied from available domestic coal of the company and accordingly, subsidiary coal companies may offer supply of domestic coal to the concerned power plants, initially offering high grades of coal wherever available in place of import components and if higher grades of coal are not available at any coal company the 5% import component may be met from any other grades of domestic coal.

In reference to the above, all the post 2009 power plants having FSA with MCL (through LOA) are hereby informed that MCL proposes to offer high grades of coal wherever available and subsequently similar grades of coal as presently being supplied under FSA, against the imported component of 5% of ACQ during 2016-17. So, the interested Power Plants having FSA with MCL (through LOA) are advised to opt for the option with an application to the undersigned.

Yours faithfully,

General Manager (S&M)
