OFFICE ORDER

Sub.: Regarding floating of tenders for works involving specialized electrical works like HT, sub-station works.

Ref : Advisory No.840 dtd. 31.5.2024 issued by DT(OP), MCL

It has been observed that in some of the tender for works related to civil department, the substantial portion of electrical works involving High Tension line, etc. requiring specialized license for executing the electrical works are being clubbed together while floating of tender.

For specialized electrical works involving HT line, sub-station works, the contractor should essentially have relevant license as a pre-requisite for being technically eligible bidder competent to execute the electrical works.

As such, the tenders of electrical works pertaining to HT line/sub-station works which are of specialized nature and mandate possession of relevant electrical license shall be floated separately with eligibility criteria as per requirement.
