Subject:- Sensitization towards posting of comments on Social Media -reg

Dear Sir,

It is noticed that some employees are engaging themselves in making inappropriate communication about the company and its management on social media and other public communication platforms i.e. Facebook, Twitter etc.

The social media platforms are to be used judiciously by the employees of MCL, CIL, refraining themselves from posting any defamatory comments/posts against company/management/its departments / or any official in their individual capacity, which can tarnish the image of the company.

Therefore, every employee working under your administrative control may be sensitized towards use of Company related matters on Social Media. Further, if any act comes in notice, whereby employees are tarnishing the image of the Company, suitable action shall be initiated against them.

General Manager (P-Administration)/I/C EE,

MCL
