

Balram OCP in Talcher continues to suffer due to villagers' stir

PBD BUREAU

SAMBALPUR/BHUBANESWAR, OCT 15

HE Mahanadi Coalfields Limited (MCL) continued to suffer on Tuesday due to the illegal stoppage of mining operations by villagers at Hingula area of Talcher coalfields in Angul district, while the residents of Tumlia village called off their strike at company's Basundhara Area in Sundergarh district of Odisha.

Coal despatch at Balram OCP was forcibly stopped by the villagers on October 6, while they stopped over burden removal at "mahalakshmi patch" on October 10.

the mine was stopped from second shift on October 12, a release from MCL said here.

This illegal stoppage of despatch operations has affected daily coal supply of 10,000 The coal production from tonne to the consumers, includ-

ing NALCO, JITPL, JSPL, BSL and GMR. So far, about one lakh tonne coal supply, around 30,000

Kalam remembered on

88th birth anniversary

tonne coal production and more than 1.6 lakh tonne of over burden removal has been affected

from Balram OCP.

Meanwhile, at Basundhara Area of company in Sundergarh district, residents of Tumlia village called off their strike after three days this afternoon.

Stoppage of mining operations at Kulda OCP, Garjanbahal OCP and Basundhara West OCP of Basundhara Area had affected daily target of 53,000 tonne coal production from Basundhara area of company, the release added.

Work stoppage of just one hour at a coal mine of MCL costs crore of rupees to the company and increases problem of fuel shortage at many coal consumers, particularly the thermal power generators.

DGP BK Sharma on Tuesday suspended the IIC of Astarang Police Station in Puri district for serious misconduct during the process of arrest and escort of a prime accused on October 6.

 release from the DGP's office said Inspector Bulu Munda has been placed under suspension pending drawal of disciplinary proceeding.

"Inspector Bulu Munda of Puri district is placed under suspension with effect from 15.10.2019 PM for his serious rnisconduct during the process of arrest and escort of prime accused in Astaronga PS Case No.99. Notably, the IIC had taken a selfie with a murder accused while on way to the Police Station.

DGP suspends IIC for | Monsoon finally withdraws from Odisha: MeT office

PBD BUREAU/PTI

BHUBANESWAR, OCT 15

IMD Tuesday declared that south west monsoon had completely withdrawn from Odisha but predicted thunderstorm in the state on October 17 and October 18. The state received about

seven per cent more rainfall than normal this time, the IMD said. "The south

west Monsoon has further withdrawn from the remaining parts of Odisha and thus from entire Odisha on October 15," it said.

🐙 PARADIP PORT TRUST

The withdrawal of the monsoon from Odisha on October 15 is considered delayed but not a new phenomenon, said H R Biswas, the director of regional meteorological centre here.

There have been delayed monsoon withdrawal from Odisha in 1973. 1975 and 2010, the IMD said.

The department in its forecast said that light to moderate rain or thundershower is very likely to occur at one or two places in Koraput, Malkangiri, Gajapati, Ganjam, Bhadrak and Mayurbhanj districts on October 17.

White tiger dies at Nandankanan

PBD BUREAU/PTI

BHUBANESWAR. OCT 15

A five-year-old white male tiger died at the Nandankanan Zoological Park here on Tuesday due to liver-related aliments, a senior official

said.

'Subhranshu', who was a major attraction at the zoo, died at about 10.15 am following month-long liver ailment, said Nandankanan Zoo deputy director Jayant Kumar Das.

"The white tiger sud-denly collapsed on Saturday and stopped eating. He was treated by experts from the Odisha University of Agriculture and Technology (OUAT) but didn't survive," Das said.

Rourkela Subhranshu was born Plant (RSP) team to Royal Bengal Tiger comprising Mahesh and white tigress Sampad Mishra, Sneha on July 25, 2014. Senior Manager With the death of Subhranshu, the tiger population at the zoo has come down to 25, out of which 12 are male and 13 are females. The white tiger's death came weeks after the death of four elephants at the zoo due to Herpes Virus infection.

ODISHA on Tuesday paid rich tribute to former president API Abdul Kalam on his 88th birth anniversary with Chief Minister Naveen Patnaik recalling the associ-ation of the 'Missile Man' with the state.

Kalam had spent con-siderable time in Bhadrak and Balasore districts as part of his efforts to launch missiles for the protection of the country.

"Humble tribute to for-President Dr mer #APJAbdulKalam on his birth anniversary. He had a long association with #Odisha & Wheeler Island has been named after him as

our fitting tribute to the mis-

sile man. His vision and

Hindalco's Green Initiative lending a hand to Odisha Govt

PBD BUREAU

BHUBANESWAR, OCT 15

ADITYA Aluminium, a unit of the Metals business of theAditya Birla Group has set up a 24 MW solar power plant at Lapanga in Sambalpur district.

This perfectly fits into the grand scheme of things for the Odisha government bv as 2022,Odisha dreams of installing renewable energy capacity of 2,750 mw, out of which 2,200 mw shall be from solar energy.

Inaugurated by Chief Minister Naveen Patnaik through video conferencing very recently, this plant spans across 144 acres of ash-filled land with an investment of Rs 151 crore.

At site, the proceedings were completed by the Unit Head of Aditya Aluminium – Kailash Pandey.

Power produced from the installed Solar project will be utilised by Aditya Aluminium in the

Aluminium Smelting process. The unit gains some incentives by using green energy. According to the

Odisha Renewable Policy, 2016, the state hosts highcapacity captive power plants (CPPs) which are obligated entities and are required to meet the solar purchase obligation (SPO) as specified by the Odisha Electricity State Regulatory Commission (OĔRC).

The entities can either set up their own solar projects or purchase power from state-funded ones to meet their SPO.

The average solar radiation for Odisha stands at 5.5 kwh per square metre, with aver-

age CUF (capacity utilisation factor) at 15-17 per cent for districts and close to 300 clear sunny days

every year. pollution-free This green energy certainly has many advantages, but it comes with its own share of challenges, says Kailash Pandey, who has a complete insight of the aluminium production process.

"Smelters require a consistent load network and uninterrupted power supply.For Aditya aluminium, this load requirement sums up to nearly 658 MW which is huge. However, power fluctuations are very common in solar plants as power generation depends on day-

electricity import and export as we are connected to the grid, he said. Load and generation management during grid islanding and blackout conditions is another challenge. major Regardless. Aditva Alumina has taken certain

light. Cloudy weather, Rains may also cause

huge power swings," Pandev points out.

Controlling turbo gen-

erators during the power

swing is an upheaval task in terms of boiler stability,

measures to overcome the issues, added Pandey. The fluctuations in power generation are

taken care of by the intelligent load shedding system, that is Composite Islanding and Load System Management (CILMS).

Addition of Solar power generation has enabled Aditya Aluminium and in turn, Hindalco to produce Greener aluminium which shall lead to sustainability of the business going forward.
