No.D(T)/Samb/Secy/653

07.06.2004

OFFICE ORDER

Many times it has been observed that although the work has been awarded for a particular work, the land is not physically available for this purpose. This has also been discussed several times in the past.

It is once again reiterated that any proposal for award of work which involves possession of land, should accompany a certificate from the concerned General Manager/Project Officer to the effect that the land is in the physical possession of MCL in all respects.
