

## **MCL is there to quench the thirst through water supply projects** **(20-06-2020)**

Providing water during summer to the populace residing in its peripheral areas is the signature CSR intervention of MCL. Company operates 101 water supply packages to serve 250 peripheral settlements and municipal wards benefitting 1.66 lakh people.

In addition to summer supply, MCL also executes 11 annual packages in acute water scarcity areas.

Annual spent on tanker water supply is around 9 Crore.

While tanker supply meets the immediate *availability*, MCL has taken quantum steps to enter into a sustainable water *access* regime. Towards this endeavor, Company is executing piped water storage, treatment and supply projects of 126 Crore out of which, 24 Cr projects covering 28 villages have already been made operational. In all, these projects will benefit 100 villages of Talcher coalfields, Brajrajnagar and adjoining villages, Burla town, and Shankara ward of Sundargarh.
